

DRUG HISTORICAL REPORTS INFORMATION

March 22, 2013

by
Erin Mosley (*Statistician*) and
Tammy Collins (*Data Analyst*)

All data has been obtained from the KYCourts/CourtNet database. The following is a list of reports pertaining to cases that contain one or more drug related offense. Some data sets may only include charge counts, these data sets will be denoted as such. Data provides either a county by county breakdown or a statewide summary. Case counts cannot be inferred as a count of individuals as some individuals may have multiple cases. A one-to-one match cannot be made between cases filed and cases closed as some cases may be disposed in a year subsequent to when they were filed. All data is for fiscal years (FY) 2008 through FY2012.

Not all case types will exist in each county or calendar year examined within the data sets. Blanks within the data should not be considered missing data but instances in which cases did not occur. Three types of data are included, Circuit Court, District Court, and Juvenile cases.

District Court Reports

- 1) INSDRG501 – Provides the aggregate frequency of cases filed, cases filed and closed within the same FY, and number of cases closed overall within the FY regardless of filing date in District Court by District.
- 2) INSDRG531 – Provides the aggregate frequency of cases filed, cases filed and closed within the same FY, and number of cases closed overall within the FY regardless of filing date in District Court by county.
- 3) INSDRG511 – Provides the number of charges for each disposition type, based upon charges disposed in District Court during each fiscal year examined.

Circuit Court Reports

- 1) INSDRG520 – Provides the aggregate frequency of cases filed, cases filed and closed within the same FY, and number of cases closed overall within the FY regardless of filing date in Circuit Court by Circuit.
- 2) INSDRG530 – Provides the aggregate frequency of cases filed, cases filed and closed within the same FY, and number of cases closed overall within the FY regardless of filing date in Circuit Court by county.
- 3) INSDRG524 – Provides the number of charges for each disposition type, based upon charges disposed in Circuit Court during each fiscal year examined.

DRUG HISTORICAL REPORTS INFORMATION

Juvenile Cases

- 1) INSDRG532 – Provides the aggregate frequency of Juvenile cases filed, cases filed and closed within the same FY, and number of cases closed overall within the FY regardless of filing date. Data is provided per county.
- 2) INSDRG509 – Provides the aggregate frequency of Juvenile cases filed by age of the juvenile and the number of cases closed by age of the juvenile. Data is provided per county.
- 3) INSDRG544 – Provides the number of charges for each disposition type, based upon charges disposed during each fiscal year examined.
